

DISTRIBUTION OF INFORMATION / MATERIALS

A. Distribution of Materials

Any materials that are to be distributed or made available in the schools, or on school property shall be approved in advance by the superintendent of his/her designee. The superintendent or his/her designee may regulate the time, place and manner of such distribution.

B. Relations with Community Organizations

The schools shall cooperate with all non-profit and non-partisan agencies such as social services, recreation, health, safety, fire, civil defense, and law enforcement agencies in promoting the general public interest and the educational welfare of the students.

The superintendent authorizes the Communications Specialist to evaluate the content of such materials. The superintendent designates each building principal to determine the most appropriate means by which to distribute such materials. No distribution will be permitted during class time.

AHPS has sole discretion regarding the use of its social media and other channels such as automated phone calls. While AHPS may highlight the activities of community partners and students/staff engaged with community partners, these communication channels are designed to support the activities of AHPS.
